

BBdental Privacy and Cookies Policy

Last updated: 14 August 2026

1. About This Policy

This policy explains what personal information we collect when you use BBdental, why we need it and what happens to it.

BBdental is an educational business-to-business online shop. It does not take real payments or send physical products. However, the details you enter when creating an account, using the contact form or placing a test order may still be saved.

This policy also explains how the website uses cookies.

2. Who Is Responsible for Your Information

BBdental is operated by Infinita Perfectio. We are responsible for the personal information collected through this website.

Address: 36 Olszowka, 43-300 Bielsko-Biala, Poland

Email: bbdental.shop@gmail.com

If you have any questions about your personal information or this policy, you can contact us by email.

3. Information We Collect

The information we collect depends on what you do on the website. This may include:

- your username, email address and password when you create an account
- your first name, surname, phone number and address

- information about your test orders, such as the products, quantities, total price and order status
- your name, email address, message and optional phone number when you use the contact form
- technical details, such as your IP address, browser and the date and time of account activity

Passwords are not saved as readable text. Django stores them in a protected form.

4. How We Use Your Information

We use your information to:

- create and manage your account
- save your profile details if you choose this option
- process and save test orders
- send account, security and order confirmation emails
- reply to messages sent through the contact form
- keep the website secure and fix technical problems

Our legal reason for using this information is our legitimate interest in running, testing and protecting this educational project. We only use the information needed for these purposes.

If you choose to save your checkout details to your profile, we do this because you have asked us to.

We do not sell your personal information or use it for advertising.

5. Test Payments and Stripe

BBdental uses Stripe in test mode to show how an online payment works. No real money is taken.

During checkout, card details are entered into a payment box provided by Stripe and sent directly to Stripe. BBdental does not see or save the full card number, expiry date or CVC.

Stripe also receives the information needed to process the test payment. This includes your name, email address, phone number, billing and delivery addresses, order amount and information about the items in your bag.

Stripe handles this information under its own [Privacy Policy](#). Only Stripe test card details should be used on BBdental. Real card details should not be entered.

6. Who We Share Information With

We only share information when it is needed to make the website work. This may include:

- Stripe, which handles test payment details
- Gmail, which is used to send account, contact form and order emails
- the hosting and database services used to run the website and store project data
- authorised staff members who manage user accounts, contact form messages and test orders

These services only receive the information needed to provide their part of the website. They handle this information according to their own privacy and security policies.

We do not sell personal information or share it with advertisers.

7. How Long We Keep Your Information

We keep your account and profile information for as long as your account remains active or until you ask us to remove it.

Test orders and contact form messages are kept only while they are useful for testing and demonstrating the project. As BBdental is an educational project, old data may be removed when the project database is cleared or reset.

Copies of emails may remain in the BBdental Gmail account until they are no longer needed. Stripe keeps test payment information according to its own privacy and data retention rules.

If you would like us to remove your information, you can email bbdental.shop@gmail.com.

8. Cookies

Cookies are small text files saved by your browser. BBdental uses cookies that help the website work properly.

The website uses:

- a session cookie to keep you logged in and remember the items in your bag
- a security cookie to help protect forms submitted through the website
- a messages cookie to show short notifications, such as login or order confirmation messages
- cookies used by Stripe to support test payments and help keep the payment process secure

The session cookie normally lasts for up to two weeks. The security cookie may remain for up to one year. The messages cookie is removed after the message has been shown.

BBdental does not use its own analytics or advertising cookies. You can read more about the cookies used by Stripe in the [Stripe Cookie Policy](#).

You can remove or block cookies in your browser settings. However, login, the shopping bag and checkout may not work correctly without them.

9. Your Data Rights

You can contact us if you would like to:

- see the personal information we have about you
- receive a copy of your information
- correct information that is wrong or incomplete
- ask us to delete your information
- ask us to stop or limit how we use your information
- object to how your information is being used
- receive your information in a format that can be moved to another service, where this is possible

These rights depend on the situation, so there may be cases where some information needs to be kept. We may also need to confirm your identity before completing a request.

To make a request, email bbdental.shop@gmail.com.

BBdental does not use computer systems to make important decisions about users or create marketing profiles about them.

If you are unhappy with how your information is handled, you can contact your local data protection authority. In Ireland, this is the [Data Protection Commission](#).

10. Keeping Your Information Safe

We use several safeguards to protect the information stored by BBdental.

Your password is stored securely and cannot be read by staff members. Customers can only view their own profile and order history. Authorised staff members can access the information needed to manage the website and test orders.

The live BBdental website uses a secure HTTPS connection to protect information while it is being sent. Card details are handled directly by Stripe and are not stored in the BBdental database.

No online system can be guaranteed to be completely secure. If you think someone else has accessed your account, you should change your password and contact bbdental.shop@gmail.com.

11. Where Your Information May Be Processed

BBdental is operated from Poland, but some of the companies that help us run the website operate in different countries. These include Stripe, Gmail and Heroku.

As a result, some information may be stored or processed outside the European Economic Area. These companies use recognised data protection safeguards when information is moved between countries.

You can contact us if you would like more information about where your information is processed.

12. Contact and Changes to This Policy

If you have any questions about this policy or how we handle your information, please email bbdental.shop@gmail.com.

We may update this policy as the BBdental project develops. The latest version will be available on this page, with the last updated date shown at the top.
